NCOS-7405 – N51OL	Friday, May 7, 2021	7:30am – 1:30pm	

OSHA #7405 Fall Hazard Awareness

Course Description: The focus of this five-hour course is to identify, evaluate, and prevent or control fall hazards. The course focuses on falls to a lower level, not falls to the same level resulting from slips and falls. The target audience is the small construction employer, business owner, or manager, who would like to obtain information about fall hazards found in the workplace. The training is also suitable for employees and employee representatives. Topics include identifying fall hazards, analyzing fall hazards, and preventing fall hazards, as well as OSHA resources addressing fall hazards. Advanced training on Fall Protection and Fall Arrest Systems is available by registering for OSHA Course 3115.

If you're working at 6 feet or higher, you need fall protection.

- ▶ Use fall protection when 6 feet up and higher.
- ▶ Inspect your harness, lanyard, and anchorage point.
- ▶ Always wear your gear and stay connected.

Falls can be prevented:
PLAN ahead to get the job done safely.
PROVIDE the right equipment.
TRAIN everyone to use the equipment safely.

Preregistration required!
Register by 4/26/21.
